### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claims 30-32, 34-36, 38 and 39 are allowable over the prior art of record because the prior art of record does not teach the claimed subject matter including the limitations of a single sputtering target, a target holder and a substrate holder capable of holding a substrate in a horizontal state, having a rotation mechanism and being rotatable around its center axis, wherein the number of rotations of the substrate is controlled to be an integer during the film formation, the substrate holder and the target holder being placed so that the target is held opposite to the substrate and a center axis of the target deviates from a center axis of the substrate and the limitation wherein the conveyor is capable of conveying one substrate at a time to introduce the substrate in the sputtering chamber so that the sputtering time for carrying out the sputtering for a substrate and an interval time which runs from an end of sputtering for one substrate to a start of sputtering for a next substrate are respectively made constant, and wherein the load lock chamber is capable of accepting one substrate at one time, so that introducing each substrate into and discharging each substrate from the sputtering chamber can be continuously made at a constant interval.

The closest prior art of record does not teach the combined features of the claims which includes the limitation of wherein the substrate holder is rotatable around its center axis and the number of rotations of the substrate is controlled to be an integer during film formation and the limitations discussed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney G. McDonald whose telephone number is 571-272-1340. The examiner can normally be reached on M-Th with every Friday off..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam X. Nguyen can be reached on 571-272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
